Warned His Subjects to Be Friendly and Not Molest the Americans. Fight at Balabuc,

Sandayan, Philippine islands, July 24, via Labuan, July 29.—Gen. Bates reached Sulu July 16 to arrange a treaty with the sultan at a conference to begin today. The sultan is to go to Sulu from the village of Maibun. The people of that island display great friendliness to ward the Americans and it is believed satisfactory treaty will soon be completed. If so future hostilities between the natives and the Americans in the Sulu archipelago would be prevented. The same would be true of the island of Mindanao, which is tributary to the sultan. The only features likely to be troublesome are slavery and the ity of wives, which points it is believed

the natives will insist upon. The sultan of Sulu has issued the following proclamation to the people: have met the Americans. They have come among us as friends, not to interfere with our religion or rights of gov ernment. All those who love their country or sultan I warn to be friendly and not molest them. The Americans are like a box of matches—you strike one or

The Moros of Zamboanga are anxious to have the Americans take possession of that port. They have imprisoned the

Tagaio leaders representing Aguinaldo there.

A gunboat went from Manila to Balabac to re-establish a lighthouse. The commander found the light stolen, but finally recovered it. He returned to Balabac and set it up again, leaving friendly natives in charge and the United States flag floating. Going back he found the flag gone and the Filipino flag floating. Two officers and 13 ma-rines were landed after a long, hard, stubborn fight, in which the native chief, the first officer and six natives were killed and several wounded. No American was even wounded.

were well patronized, especially during the busy hours of the morning and evening. Mayor Farley was well pleased with

his vigilance one whit and will not until the last vestige of the disorder is wiped away. The mayor and Adintant General Axline were involved in a controversy over what the troops should do and what they should not do. The adjutant general was of the opinion that the duty of the national guard was merely to put down rioting and not to do police duty. Whatever the duty of the national guard may be, Mayor Farley held that the troops were here under his authority and said they would remain here until he felt they could be dispensed with. The responsibility of preserving the order of the city rested upon the shoulders of the mayor, he said, and he proposed to see that his plaus were not interfered with by any one. He declared that he was to be the judge as to when the troops were not wanted.

There have been several outbreaks between Mayor Farley and Adjutant General Axline within the last few days over this questions. The mayor refused to discuss the difficulty, saying that this was not a time to stir up any discord. "I will merely reiterate my statement of Thursday night," said the mayor.

"This is a time for every man to mind his own business.' Rumors to the effect that the city

council will endeavor to reconsider the resolution of Thursday night reached the ears of the mayor and he did not like them. The mayor felt that he had the situation well in hand and he feared that any action of the council whatever would be temporizing with the lawless element of the city and would cause agitation which would simply prolong the trouble.

After the breaches have been healed and quiet has been absolutely restored the mayor, it was said, would not object to any kind of an investigation upon the part of the council, but he deems that the members are treading on extremely dangerous ground when hey undertake to reopen the discussion. was said that any such resolution is was proposed the other night can be adopted with a full council meeting, and efforts are to be made to have every one present next Moyday night. The Committee Asked Contributions—De clared Home Would Be Bought, Regardless of Amount.

Washington, July 29 .- The secretary of the Dewey home fund requested the publication of the following statement: There can no longer be any doubt as to whether a home will be purchased by popular subscription for Admiral George Dewey. At a meeting of the national Dewey home fund committee today (Friday) it was found that the aggre gate amount of cash actually received by Treasurer Roberts is \$16,700, from a total of over 23,000 subscribers. One hundred and three subscribers gave \$10,000. The statement was made that the \$5,000 promised some time since by the New York Journal would be forthcoming shortly, bringing the grand aggregate up to \$21,700. The committee agreed to close the subscriptions before the arrival of Admiral Dewey in New York in September and then to proceed, after consultation with the admiral as to location, etc., to purchase the home

with whatever funds they may at that time have in hand. "We will purchase the nome if not another dollar is received; so that the onestion now is whether the patriotic and generous people of the county will permit the purchase of a home at the nation's cae tal for the hero of Manila with \$20,000 or \$30,000," say the com mittee, in making their last appeal Therefore those who desire to contribute are urged by the committee to contribute at once. All contributions should be forwarded to Hon. Ellis H. Roberts, treasurer of the United States, Washington, who will issue sonvenir receipts for the same.

A Translation. "In one of the schools of this city." says the Worcester Gazette, "the teacher, intending to relieve the monotony of the regular exercises, asked the pupils if they would not like to sing. Of course there was an instant clamor in the affirmative, and then the teacher asked what song they would prefer. One little boy, in his eagerness to make the selection, spluttered out something which the teacher did not catch. Turn ing to the boy across the alsle, she asked what Johnnie said. 'Please,' came the unexpected answer, 'he says he wants to sing "His Country, "Tis of Him." . .
